All--

I made it through all of the additional comments from Steve and integrated as I could. The new lang. added is highlighted in green. Please take a look at that in addition to any outstanding yellow highlights that you have not addressed yet from the earlier version I sent around.

In addition for capturing most of the additional comments from Steve, I've also integrated recent edits from Don and Alan.

I've also attached Steve's original appendix with notes I made to reflect where I added responses and in a few cases where I was stumped or didn't know if we needed to respond. I appreciate your help with these.

Thanks,
Allison
